

Goldenrod Suite

You get the gold standard in value and comfort when you choose the Goldenrod Suite. Enter the foyer, which opens into the spacious living room, and then leads you onto your balcony and view of the grounds. Semi-enclosed, the balcony has space for patio table and chairs - perfect for your morning coffee.

At one end of the living room is your complete kitchen, featuring traditional oak cabinetry, Tuscan marble formed laminate countertops, stove, dishwasher, sink and fridge with freezer. Your suite also includes a master bedroom with double closet and a den. In the bathroom you'll discover a handicapped-accessible walk-in shower with safety bar. Other safety features are a smoke alarm, fire alarm, and 24/7 access to emergency assistance. The final touches are a utility room for laundry, San Sebastian Berber carpet in living room, den and bedroom, and Congoleum Prelude flooring in kitchen and bathroom.
