

Viola Suite

Your new Viola Suite is as petite and charming as its namesake flower: a compact, easy-care residence that combines the best of home and hotel. This open-plan 375 square foot studio includes a kitchenette with traditional oak cabinets, a formed laminate countertop patterned after Tuscan marble, a sink, a microwave and a fridge with freezer. Savour scrumptious dining in the Harvest Dining Room while enjoying the freedom to create your own meals and snacks.

A large double-closet off your combined living area - bedroom keeps your clothes in order.

Underfoot you'll find easy-care Congoleum Prelude flooring or quality San Sebastian Berber carpet. Fan lights are overhead. Your suite also includes a private bathroom with a handicapped-accessible walk-in shower.

Like all our units, your new home includes safety features: grab bars in the shower, a smoke detector, fire detector, and 24/7 access to emergency assistance.
